**Crossing Cultures with Story:
Dare to Tell Your Story**

Crossing Cultures With Story is a talk exploring the qualities of stories that we must tell to engage, educate and empower our communities when in need and when in a crisis. The right story at the right time is capable of saving an organization or a community from decay or collapse. On the other hand, the wrong story could breed hatred, enmity or chaos within a team.

At a time of polarization and apathy, organizations can do more in fostering cross cultural storytelling to uphold the values that transcend the past, the present and the future.

Today, we are badly in need of contagious stories that build, bind and heal cultural differences. If we fail to tell such stories that transcend us, we fail to uphold the torch of many generations that have contributed to some of the relative comforts we enjoy today.

Featuring Gideon F. For-mukwai, Story Warrior
